

Sokol Blosser

DUNDEE HILLS, OREGON

Est. 1971

2014 Big Tree Block Pinot Noir

VINTAGE: 2014

APPELLATION: 100% Dundee Hills AVA

CERTIFICATIONS: Made with 100% organic grapes | Oregon Department of Agriculture Organic Certified Wine

GRAPE VARIETIES USED: 100% Pinot Noir | 100% Estate Grown

DATE GRAPES PICKED: 9/11/14 **AGE OF VINES:** 15-17 years old

LENGTH OF FERMENTATION: ~15 days

TYPE OF FERMENTATION: Three-ton open top fermenters | Punched down up to 2 times per day

LENGTH OF SKIN CONTACT: Post-fermentation maceration ~10 days | Total time in fermenter~ 25 days

FERMENTATION TEMPERATURE: Peak temperature ~82° F

ALCOHOL: 14.0%

LENGTH AND TYPE OF AGING: 100% barrel-aged in French oak | 17 months in barrels | 38% new barrels

DATE BOTTLED: March 2016

BOTTLE AGING PRIOR TO RELEASE: 12 months

LIFESPAN IN A PROPER CELLAR: ~10-15 years

NUMBER OF CASES PRODUCED: 400 cases

SUGGESTED RETAIL: \$70

VINEYARD SUMMARY: This block was replanted in 2 sections during 1998 & 2000 and covers 5.27 acres. Elevation is at 500-450ft. Jory soil. Clones 115, 777 and Pommard.

VINTAGE SUMMARY: Like the rest of the world, 2014 was a really warm year in Oregon. On average, the Willamette Valley typically receives around 2200 growing degree days; in 2013, it was 2717 but we hit 2867 in 2014. We had a very dry summer and the nights never really cooled down. It was not hot, and we did not get many days above 95°F but the weather was just warm in the day and warm in the night. Not typical. Rain fall was below normal but not drastically below. We did not turn on the limited irrigation that we have in our top pinot blocks as the vines never became water stressed. What did this do to the grapes? Surprisingly, this was the largest crop we have ever seen at Sokol Blosser, and 2014 was our 44th year of winegrowing in the Dundee Hills. Such a large crop can greatly increase disease pressures, but with the dry summer and dry harvest time conditions, the crop came in as clean and disease free as in 2012. Even with thinning the crop back 40-50% in the vineyard we still received on average about 3.35 tons an acre for our pinot noir. What has resulted is a wine with dark color and great intensity.

WINEMAKER NOTES: Our single block program showcases the variation and nuanced expressions of the different vineyards on our estate. All fruit for this program is grown in the Jory soils of the Dundee Hills. The grapes are harvested when the phenolic, sugar and acid strike the right balance, with our main focus on the flavor development. Once the grapes make it into the winery, they are all treated the same, which gives each vineyard block the opportunity to fully express its own unique characteristics. After aging, each barrel is tasted and hand selected by Winemaker Alex Sokol Blosser to be in the program. Our single block wines are made for lengthy aging.

A 37% portion of this wine was fermented in a 3 ton open top wooden upright fermenter. This wine was pressed at dryness. The remaining portion of the wine went through our standard extended maceration program for a total of 25-30 days of skin contact.
